Downloading Files
To initiate a file download, control-click (Macintosh) or right-click (Windows) on the name of the file in the file listing at left. Next, choose "Save File As...", "Save Linked File...", or the similar option in the pop-up menu shown, then use the standard "Save File" box to select where on your hard drive the file should be placed.
To monitor the progress of the file download, please open the "Downloads" or "Download Manager" window in your Web browser.
